SCIENCE FAIR

Dear Parents,

We hope this message finds you well. We are excited to announce that our annual science fair will be held on **27th January**. This event is a wonderful opportunity for our students to showcase their scientific knowledge and creativity.

We have carefully selected a range of fascinating topics for the science fair, ensuring that there is something to capture the interest of every student. Topics were selected and posted by teachers on ViewClass. **Regarding the subjects of physics, chemistry, and biology, only one project is required for all the science subjects.**

We encourage you to discuss these project options with your child and help them choose one that aligns with their interests and curiosity. This will not only enhance their learning experience but also foster a sense of ownership in their scientific exploration.

Please mark your calendars for **27th January** as we look forward to welcoming you all at our science fair. It promises to be an enlightening event where students will present their findings, demonstrate experiments, and engage in interactive discussions.

Thank you for your continued support in nurturing our young scientists' passion for knowledge. We believe that together we can inspire them to make a positive impact on our world through science.

- NOTE:**
- **The science projects are graded and marked. (out of 4)**
 - **The students can participate in one group to prepare the projects.**
 - **The deadline to submit the projects is 24th January.**

Warm regards,

Horizon international school

Science Department
